PROFESSIONAL SUMMARY

Motivated B.Tech Artificial Intelligence & Data Science student (2nd Year, CGPA: 8.25) with a strong foundation in data analysis, machine learning, and statistical thinking. Certified in ML through Saylor Academy and trained via HP LIFE and Innova Tech workshops. Passionate about transforming raw datasets into meaningful insights using Python, SQL, and data visualisation tools to support effective, data-driven business decisions.

TECHNICAL SKILLS

Data Analysis	Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, Microsoft Excel
Data Visualisation	Power BI, Tableau, Matplotlib, Seaborn, Dashboard Design
Machine Learning	Scikit-learn, Regression, Classification, Clustering, Model Evaluation
Databases & Tools	MySQL, Jupyter Notebook, Google Colab, Git, GitHub
Core Concepts	Statistics, EDA, Data Cleaning, Feature Engineering, Reporting

PROJECTS

Retail Sales Performance Analysis | *Python | Pandas | Matplotlib | SQL | Excel*

- Analysed 60,000+ retail transaction records using Python (Pandas, Matplotlib) and SQL to uncover sales trends, seasonal patterns, and top-performing product categories across regions.
- Designed automated Excel and Matplotlib dashboards to present monthly KPI summaries including revenue growth, average order value, and customer purchase frequency, reducing manual reporting effort by 60%.

Student Performance Prediction System | *Python | Scikit-learn | Pandas | Seaborn*

- Built a classification model using Scikit-learn (Random Forest & Logistic Regression) on a 10,000-record academic dataset to predict student pass/fail outcomes with 88% accuracy.
- Conducted thorough EDA and feature engineering to identify key performance indicators such as attendance rate, assignment scores, and parental education, visualised via Seaborn heatmaps and bar plots.

Social Media Sentiment Dashboard | *Python | NLP | NLTK | Power BI | Pandas*

- Developed an NLP-based sentiment analysis pipeline on 25,000+ Twitter posts using NLTK and TF-IDF vectorisation, classifying public opinion into positive, negative, and neutral categories with 85% accuracy.
- Integrated processed sentiment data into a live Power BI dashboard, enabling real-time brand perception monitoring and surfacing key trend insights for marketing decision-making.

CERTIFICATIONS & TRAINING

- CS207: Fundamentals of Machine Learning – Saylor Academy
- AI for Beginners – HP LIFE in collaboration with HP Foundation
- Workshop on Machine Learning – Innova Tech

EDUCATION

B.Tech – Artificial Intelligence & Data Science | Dhanalakshmi Srinivasan Engineering College (Autonomous) 2023 – 2027

CGPA: 8.25 | 2nd Year | Core Areas: Data Science, Machine Learning, AI, Statistics, Database Management

Higher Secondary (12th) | Jay Tech International School, CBSE Completed 2023
12th: 71%

Secondary (10th) | Mary Matha CMI Public School, CBSE Completed 2021
10th: 69.4%
